## Who We Are:

We are Kansas City's #1 residential electrical contractor, family owned and operated. We service the entire Kansas & Missouri areas with an established reputation for over 15 years. We are licensed, bonded, insured and stand behind all our work with a trusted warranty.

## Our Craftsmanship Guarantee:

Here at JMC Electric we go above and beyond for all our customers. Most companies offer a basic warranty, JMC however offers a lifetime craftsmanship warranty promising that all our equipment is installed properly the first time. Our warranty covers our service no questions asked. We also cover the parts we use – up to the manufactures warranty.

## Home Owner Safety Questions

- ✓ Has the electrical system in your home been inspected recently by a licensed professional?
- ✓ Are your appliances and electronics protected by a whole home surge protector?
- ✓ Do you have AFCI/GFCI protection as required for wiring and outlets?
- ✓ Are there ungrounded or faulty outlets throughout the home?
- ✓ Are the circuits in your home properly wired on a dedicated circuit?
- ✓ Do you have proper smoke & carbon monoxide detectors in all areas of your home?

**If you have any concerns about the questions above, PLEASE CALL US TODAY FOR A FREE IN-HOME ESTIMATE!!**

## 5 Signs That You Might Need A Service Upgrade

1. **If your electrical service has not been updated in the last 20 years.** i.e. Fuses or Outdated breakers.
2. **Undersized Existing Service** - No spare breaker spaces, excessive use of tandem breakers
3. **Tripping Breakers / Overloading Circuits**  
Breakers are frequently tripping, flickering lights, etc.
4. **Actual Panel or Service Deterioration** such as signs of a arcing, discoloration of bus bar or panel interior, water damage, rust, or burning smells.
5. **Updating your home or Appliances** if you're planning to do remodel wiring, updating the kitchen or basement, and / or purchasing new appliances, getting your service in order should be a priority.
